MELANIE HOPKINS

I am currently in my final year of study for the Bachelor of Interior Design (Residential) at Billy Blue College of Design in Sydney. I would like to gain as much experience as possible through internships while in my final year of study. I am willing to work hard and learn new skills to broaden my knowledge and become a better designer. I have focused my studies in Residential as I already have experience and qualifications in commercial fields however, I would be a good asset in both Residential and Commercial Design.
